COMPANY

Elletipi, un nome, una firma, una garanzia

Elletipi inizia la sua attività nel 1954 dedicandosi allo stampaggio delle materie plastiche. Sempre attenta alle evoluzioni del mercato e alle nuove tendenze estetiche, nel corso degli anni l'azienda sceglie di specializzarsi nella produzione di componenti per mobili da cucina. Elletipi, è tra i leader nel settore, si distingue per la ricerca continua di soluzioni tecniche originali dal design innovativo, avvalendosi del reparto interno di sviluppo del prodotto.

Alcuni prodotti di questo catalogo sono stati sviluppati con l'architetto Giuseppe Mincolessi di Lineaguida.

Elletipi, a name, a company design, a guarantee

Elletipi started trading in 1954, dedicating its business activities to plastic moulding. The company has always reacted to market changes and new aesthetic trends, and over the years it decided to specialise in the production of components for kitchen cabinets. Elletipi, a leader in its field, distinguishes itself by the constant search for original technical solutions with innovative design, through the activities of the internal product development department. Some of the products in this catalogue were developed with the architect Giuseppe Mincolessi of "Lineaguida".

Elletipi, un nombre, una empresa, una garantía

Elletipi inicia su actividad en 1954 dedicándose al estampado de los materiales plásticos. Siempre atenta a las evoluciones del mercado y a las nuevas tendencias estéticas, a lo largo de los años la empresa opta por especializarse en la producción de componentes para muebles de cocina.

Elletipi, entre los líderes del sector, se distingue por la búsqueda continua de soluciones técnicas originales con un diseño innovador, sirviéndose de un taller interno de fabricación del producto. Algunos productos de este catálogo han sido creados con el arquitecto Giuseppe Mincolessi de Lineaguida.

VISION

Siamo ricchi di attenzioni

Possono sembrare semplici oggetti, ma noi dedichiamo un'estrema attenzione alla loro progettazione per fare la differenza e rendere piacevole e funzionale il loro utilizzo in cucina.

Poiché sappiamo che ogni cucina ha il proprio stile proponiamo soluzioni e finiture diverse dal design classico al moderno.

We pay a lot of attention

They may look like simple objects, but we dedicate extreme attention to their design to make a difference and make their use in the kitchen pleasant and functional.

Since we know that every kitchen has its own style, we offer solutions and finishes ranging from classic models to modern design.

Nos encantan las atenciones

Pueden parecer objetos simples, pero dedicamos un cuidado extremo a su diseño para marcar la diferencia y hacer que su uso en la cocina resulte agradable y funcional. Como sabemos que cada cocina tiene su propio estilo, proponemos soluciones y acabados diferentes que van del diseño clásico al moderno.

MISSION

Siamo affidabili

La cucina è il luogo più vissuto della casa, dove ci si incontra con la famiglia, gli amici. Per questo anche un semplice accessorio come una pattumiera, un portaposate, uno scolapiatti, racconta chi siamo, del nostro atteggiamento nei confronti dell'ambiente che ci circonda. Da sempre Elletipi è attenta alle esigenze dei propri clienti. Più di 50 anni di esperienza, continui investimenti in tecnologia, formazione del personale, ricerca e sviluppo, questi sono i nostri punti di forza.

We are reliable

The kitchen is the most lived-in room in the house, where people gather with family and friends. This is why even a simple accessory like a dustbin, a cutlery tray, or a dish drainer, says something about us, about our attitude towards the environment that surrounds us. Elletipi is always attentive to the needs of its customers. More than 50 years' experience, continuous investments in technology, staff training, and research and development; these are our strengths.

Se puede confiar en nosotros

La cocina es el lugar donde más tiempo se pasa en la casa, donde nos reunimos con la familia, los amigos. Por esto, incluso un simple accesorio como un cubo de basura, una bandeja para cubiertos, un escurreplatos, dice quiénes somos, cuál es nuestra actitud con respecto al ambiente que nos rodea. Desde siempre, Elletipi está atenta a las exigencias de sus clientes. Más de 50 años de experiencia, continuas inversiones en tecnología, formación del personal, investigación y desarrollo, éstos son nuestros puntos fuertes.

Inconfondibile sistema ad estrazione totale per la raccolta differenziata dal design originale.

Accurato studio di linee e forme per un prodotto perfettamente ergonomico e di facile utilizzo, nato dalla collaborazione con "Lineaguida".

A unique system for complete removal of waste that needs to be separated, with an original design. Careful study of the design and shapes to make a product that is totally ergonomic and easy to use, developed in collaboration with "Lineaguida".

Inconfundible sistema de extracción total para la recogida selectiva de original diseño.

Esmerado estudio de líneas y formas para un producto perfectamente ergonómico y de fácil uso, nacido de la colaboración con "Lineaguida".

Caratteristiche:

1. Prodotto in plastica completamente riciclabile.
2. Guide ad estrazione totale in metallo.
3. Fornito in 3 larghezze e 2 profondità.
4. Sportello a ribalta, unico nel suo genere, per gettare i rifiuti di piccole dimensioni.
5. Ripiano superiore utilizzabile come portaoggetti (detersivi, spugne...).
6. Tutte le pattumiere sono dotate di un secchio con coperchio con filtro antiodore (rigenerabile con lavaggio fino a 50 volte).
7. Fianco sagomato salva spazio.
8. Semplicità di installazione con solo 4 viti.

Features:

1. Fully recyclable plastic product.
2. Runners and extraction device made only of metal.
3. Supplied in 3 widths and 2 depths.
4. A unique hatch with a flap to dispose of small pieces of waste.
5. Upper shelf that can be used to keep objects (detergents, sponges, etc.).
6. All the bins have a bucket and a lid with an odour filter (which can be regenerated by washing for up to 50 times).
7. Space saving shaped side.
8. Easy to assemble with just 4 screws.

Características:

1. Producto de plástico completamente reciclable.
2. Guías de extracción total de metal.
3. Se entrega en 3 anchos y 2 profundidades.
4. Puerta con solapa, única en su género, para tirar los desechos de pequeño tamaño.
5. Tabla superior que se puede usar como porta-objetos (detergentes, estropajos...).
6. Todos los cubos de basura llevan un cubo con tapa y filtro anti-olor (regenerable con lavado hasta 50 veces).
7. Lado moldeado para ahorrar espacio.
8. Instalación simple con sólo 4 tornillos.

Sistema ad estrazione frontale in acciaio inox lucido AISI 430 per la raccolta differenziata. Design lineare e minimale, massima cura nei dettagli sia tecnici che estetici per il prodotto ELLETIPI top di gamma

Front Extraction system in polished stainless steel AISI 430 for the waste separation. Linear and minimalist design, utmost care in both technical and aesthetic details for the Elletipi product top of the range.

Sistema de extracción frontal de acero inoxidable brillante AISI 430 para recogida selectiva. Diseño lineal y minimalista, muy atento a los detalles, tanto técnicos como estéticos, para el producto top de gama de Elletipi.

Caratteristiche:

1. In acciaio inox completamente riciclabile.
2. Guide in metallo ad estrazione totale con soft-closing.
3. Fornito in differenti larghezze, altezze e profondità.
4. Tutte le pattumiere sono dotate di un secchio con coperchio con filtro divora-odore (rigenerabile con lavaggio fino a 50 volte).
5. Robusta struttura interna in lamiera di acciaio zincato verniciato bianco.
6. Sportello frontale scatolato (con possibilità di personalizzazioni).
7. Semplicità di installazione con sole 4 viti.
8. Facile da pulire.

Features:

1. Fully recyclable stainless steel product.
2. Metal ball bearing sliders with total extraction with soft-closing.
3. Supplied in different widths, heights and depths.
4. All waste bins have a bin with lid with anti odour filter (regenerable by washing up to 50 times)
5. Robust internal structure in white painted galvanized steel sheet.
6. Front door boxed (with the possibility of customization)
7. Easy installation with only 4 screws.
8. Easy to clean.

Características:

1. De acero inoxidable, completamente reciclable.
2. Guías de metal de extracción total con soft-closing.
3. Disponible en diferentes anchos, altos y profundidades.
4. Todos los cubos de basura cuentan con un recipiente con tapa con filtro antiolor (lavándolo puede reutilizarse hasta 50 veces).
5. Sólida estructura interna de chapa de acero cincado pintada de blanco.
6. Compuerta frontal embutida (se puede personalizar).
7. Fácil de instalar, con solo 4 tornillos.
8. Fácil de limpiar.

Linea di pattumiere da base realizzate in filo d'acciaio cromato per per la raccolta differenziata. Prodotto semplice, ma allo stesso tempo estremamente robusto, durevole e con un ottimo rapporto qualità/prezzo. Offre un'ampia gamma di soluzioni grazie all'utilizzo della serie di contenitori Cover Box.

Caratteristiche:

- 1.** Struttura in filo d'acciaio cromato completamente riciclabile.
- 2.** Guide a sfera ad estrazione totale in acciaio
- 3.** Fornito in differenti larghezze, altezze e profondità.
- 4.** Robusto e durevole nel tempo.
- 5.** Versatile e di poco ingombro (grazie al semplice telaio in metallo senza carenatura)
- 6.** Semplicità di installazione con sole 4 viti.
- 7.** Facile da pulire.

Line of build in waste bins systems made of chrome plated steel wire for waste separation. Basic product, but at the same time extremely strong, durable and with an excellent quality/price ratio. It offers a wide range of solutions thanks to the use of the Cover Box series containers.

Features:

- 1.** Frame in recyclable chromed steel wire.
- 2.** Steel ball bearing sliders with a full extension.
- 3.** Supplied in different widths, heights and depths.
- 4.** Strong and durable.
- 5.** Versatile and space-saving (thanks to the simple metal frame without outside hull)
- 6.** Easy installation with only 4 screws.
- 7.** Easy to clean.

Línea de cubos de basura de base fabricados en hilo de acero cromado para recogida selectiva. Producto simple pero al mismo tiempo extremadamente sólido, duradero y con una excelente relación calidad/precio. Ofrece una amplia gama de soluciones, gracias a la utilización de la serie de contenedores Cover Box.

Características:

- 1.** Estructura de hilo de acero cromado, completamente reciclable.
- 2.** Guías de bolas de acero totalmente extraíbles.
- 3.** Disponible en diferentes anchos, altos y profundidades.
- 4.** Sólido y duradero a lo largo del tiempo.
- 5.** Versátil y de dimensiones reducidas (gracias al simple bastidor de metal sin revestimiento).
- 6.** Fácil de instalar, con solo 4 tornillos.
- 7.** Fácil de limpiar.

Drive

Sistema di pattumiere di grandissima capacità (da 32 e 43 litri) che permette di inserire contenitori da 43 litri già nella basi di modulo 400 mm fino ad arrivare ad una capienza di 86 litri in basi di modulo 600 mm. Disponibili 2 versioni, ad estrazione frontale con maniglia cromata o predisposta per il fissaggio diretto all'anta. Il vassoio estraibile è realizzato in lamiera di acciaio zincato verniciata a polveri epossidiche ed è dotato di guide BLUM® ad estrazione totale con soft-closing di portata massima di 50 kg. I contenitori realizzati in polipropilene finitura argento sono dotati di coperchio a ribalta rimuovibile.

Caratteristiche:

1. Sistema in lamiera di acciaio zincato verniciato a polveri epossidiche completamente riciclabile.
2. Per basi modulo 400,450,500 e 600 mm da 32 a 86 litri
3. Massima ottimizzazione dello spazio disponibile all'interno della base
4. Ogni articolo è fornito con kit per la versione manuale (maniglia) o automatica (attacco anta) con possibilità di registro.
5. Dotato di guide BLUM® ad estrazione totale con soft-closing e portata massima 50 kg.
6. Contenitori da 32 e 43 litri; capienza complessiva fino a 86 litri.
7. Semplicità di installazione con sole 8 viti.
8. Facile da pulire.

The large volume dustbins system (32 and 43 liters) which permits to place containers of 43 liters in base units 400 mm up to a 86 liter capacity in 600mm base units. Available in 2 versions, with front extraction with chrome handle or for direct fixation to the front door. The pull out tray is made of galvanized sheet steel which is epoxy painted, and is equipped with full extension soft-closing Blum® sliders with a maximum capacity of 50 kg. The containers made out of polypropylene in silver finish are provided with a removable flap cover.

Features:

1. System made out of an epoxy painted galvanized plate steel completely recyclable.
2. For kitchen cabinets 400, 450, 500 and 600 mm from 32 to 86 liters.
3. Maximum optimization of the available space within the base cabinet.
4. Each item is provided with the kit for the manual version (handle) or automatic (front door) with horizontal or vertical adjusting possibilities.
5. Equipped with full extension BLUM® guides with soft-closing and maximum 50 kg capacity.
6. Containers 32 and 43 liters; total capacity of 86 liters.
7. Easy installation with only 8 screws.
8. Easy to clean.

Sistema de cubos de basura de gran capacidad (de 32 y 43 litros) que permite introducir contenedores de 43 litros en la base del módulo de 400 mm hasta llegar a una capacidad de 86 litros en la base del módulo de 600 mm. Está disponible en 2 versiones, de extracción frontal con manija cromada o preparada para la fijación directa a la puerta. La bandeja extraíble está fabricada en chapa de acero cincado pintada con polvo epoxi y cuenta con guías BLUM® totalmente extraíbles con soft-closing y capacidad máxima de 50 kg. Los contenedores fabricados en polipropileno con acabado plata cuentan con tapa plegable extraíble.

Características:

1. Sistema de chapa de acero cincado pintada con polvo epoxi, completamente reciclable.
2. Para bases de módulos de 400, 450, 500 y 600 mm, de 32 a 86 litros.
3. Máxima optimización del espacio disponible dentro de la base.
4. Todos los artículos se entregan con kit para la versión manual (manija) o automática (fijada a la puerta) con posibilidad de regulación.
5. Cuenta con guías BLUM® de extracción total con soft-closing y capacidad máxima de 50 kg.
6. Contenedores de 32 y 43 litros; capacidad total de hasta 86 litros.
7. Fácil de instalar, con solo 8 tornillos.
8. Fácil de limpiar.

Swing 2.0

Il sistema girevole ad Apertura Automatica con l'anta è un sistema innovativo che permette la chiusura ermetica del contenitore. Completamente realizzato in polimeri di Polipropilene e Nylon caricato in fibra di vetro, oltre che funzionale si presenta come estremamente robusto e durevole nel tempo. Un prodotto semplice dal design minimale, che nasce da importanti analisi di utilizzo in risposta alla richieste sia dei rivenditori, sia dei clienti finali. Studiato per scaricare tutto il peso del contenitore sul fianco della base anziché sullo sportello e non ledere nel tempo l'anta della cucina. Il sistema di trascinamento è adattabile a tutte le tipologie di anta grazie ad un pratico sistema che ne permette la regolazione. L'oggetto può essere montato sia sul fianco destro che sul fianco sinistro della base, o sovrapposto. E' Disponibile con contenitori da 12, 15, 18 e da 24 litri, i quali per le proprie caratteristiche intrinseche, possono ulteriormente essere suddivisi per effettuare raccolta differenziata all'interno di un solo contenitore.

Caratteristiche:

1. Robusto supporto girevole del secchio in polimeri caricati.
2. Apertura e chiusura automatica tramite l'apertura dell'anta.
3. Disponibile per contenitori da 24, 18, 15 e 12 litri.
4. Idoneo al montaggio sia sul fianco destro che sul fianco sinistro della base.
5. Trascinatore regolabile per tutte le tipologie di anta.
6. Idoneo per tutte cerniere (consente le massime aperture).

The Automatic Opening with the door is an innovative system that allows the container to be sealed. Completely made of Polypropylene and Nylon with fiberglass, as well as functional it looks extremely solid and durable over time. A basic product with minimal design, a result from an usage analysis in response to the demands of retailers and end customers. Designed to relieve the weight of the container on the kitchen base wall instead of the door and will not damage the kitchen door in time. The pull out system is suitable for all types of doors thanks to a practical system that allows its adjustment. The system can be mounted either on the right side or on the left side of the base, or one on top of the other. It is available with 12, 15, 18 and 24 liters bins, which for their own intrinsic characteristics can be further subdivided into a waste separate system within a single container.

Caratteristiche:

1. Robust rotating bucket support made out of reinforced polymers.
2. Automatic opening and closing lid by opening the door.
3. Available for containers with a capacity of 24, 18, 15 and 12 liters.
4. Available on both the right and the left side of the kitchen base.
5. Adjustable pull out regulator for all types of doors.
6. Suitable for all hinges (allows maximum openings).

El sistema giratorio de apertura automática con la puerta es un sistema innovador que permite el cierre hermético del contenedor. Completamente hecho de polipropileno y nylon reforzado de fibra de vidrio, además de ser extremadamente, es extramente robusto y duradero en el tiempo. Un producto simple con un diseño minimalista, que surge de un importante análisis de utilización en respuesta a las solicitudes de los distribuidores como de los clientes finales. Diseñado para descargar todo el peso del contenedor en el lado de la base en lugar de en la puerta y no dañar la puerta de la cocina con el uso diario. El sistema de arrastre es adaptable a todos los tipos de puertas gracias a un sistema práctico que permite a su regulación. El cubo se puede montar en el lado derecho o en el lado izquierdo de la base, o se puede superponer. Está disponible con contenedores de 12, 15, 18 y 24 litros, que, debido a sus características intrínsecas, pueden dividirse aún más para la recogida selectiva de basura dentro de un solo contenedor.

Características:

1. Soporte rotativo del cubo de polímero cargado muy robusto.
2. Apertura y cierre automáticos abriendo la puerta.
3. Disponible para cubos de 24, 18, 15 y 12 litros.
4. Adecuado para el montaje tanto en el lado derecho como en el lado izquierdo de la base.
5. Trazador ajustable para todo tipo de puertas.
6. Adecaudo para todas las bisagras (permite aberturas máximas).

Linea di pattumiere di Grande Capacità semplice ed economico. Il supporto in acciaio inox si fissa direttamente all'interno dell'anta e sullo stesso è possibile agganciare i contenitori della serie Cover Box.

Product line of waste bins simple and economic with a big capacity. The stainless steel support is fixed directly on the inside of the door and on the same it is possible to hook on the containers of Cover Box series.

Línea de cubos de basura de Gran Capacidad, simple y económica. El soporte de acero inoxidable se fija directamente al interior de la puerta y en el mismo se pueden enganchar los contenedores de la serie Cover Box.

Caratteristiche:

- 1.** Supporto in acciaio inox completamente riciclabile.
- 2.** Contenitori in polipropilene completamente riciclabile di 15, 18 e 24 litri.
- 3.** I contenitori utilizzati permettono, all'occorrenza, di inserire 2 sacchetti all'interno di un solo contenitore.
- 4.** Semplicità di installazione con sole 2 viti.
- 5.** Facile da pulire.

Features:

- 1.** Stainless steel support completely recyclable
- 2.** Bins in completely recyclable thermoplastic polypropylene of 15, 18 and 24 liters
- 3.** The containers we use allow, if necessary, to insert two inner bags on the inside of a single container
- 4.** Easy installation with only 2 screws.
- 5.** Easy to clean.

Características:

- 1.** Soporte de acero inoxidable, completamente reciclable.
- 2.** Contenedores de polipropileno completamente reciclables de 15, 18 y 24 litros.
- 3.** Los contenedores utilizados permiten, si fuera necesario, introducir 2 bolsas dentro de un mismo contenedor.
- 4.** Fácil de instalar, con solo 2 tornillos.
- 5.** Fácil de limpiar.

Square 2.0

Linea di pattumiere per raccolta differenziata di Grande Capacità da cassetto con collegamento all'anta. Il sistema è composto da un telaio in lamiera di acciaio zincato verniciato a polveri epossidiche che si integra perfettamente nei cassetti di tutti i più importanti produttori, sostituendo il normale fondo in melaminico. Il sistema offre la possibilità di organizzare la raccolta differenziata in basi dedicate ed ottimizza lo spazio disponibile. La versione SQUARE 2.0 ha subito un restyling portando i contenitori a filo delle sponde dei cassetti. Per tutti i modelli è disponibile come accessorio il coperchio automatico che, dotato di cuscinetti scorrevoli, permette la chiusura/apertura automatica dei contenitori. La sede di alloggio dei contenitori è caratterizzata da un profilo imbutito che oltre ad irrobustire la struttura la rende anche più gradevole.

Product line of Large Capacity waste bins for waste separation for drawers with fixation for the door front. The system consists of a metal galvanized steel frame epoxy powder painted that integrates perfectly in the drawers of all the major manufacturers, replacing the normal melamine bottom of the drawer. The system offers the possibility to organize the waste separation in dedicated kitchen bases and to optimize the available space. The SQUARE 2.0 version has undergone a makeover bringing the inner bins to top of the drawer sides. For all models is available an accessory namely the automatic lid that is equipped with sliding bearings, which allows the closing/opening automatically of the containers. The seat of accommodation of the containers is characterized by a deep-drawn profile which strengthens the structure making it a clean aspect.

Línea de cubos de basura para recogida selectiva de Gran Capacidad de cajón con fijación a la puerta. El sistema está compuesto por un bastidor de chapa de acero cincado pintada con polvo epoxi que se integra perfectamente en los cajones de los principales fabricantes, sustituyendo el fondo de melamina habitual. El sistema ofrece la posibilidad de organizar la recogida selectiva en bases específicas y optimiza el espacio disponible. La versión SQUARE 2.0 ha sido rediseñada, llevando los contenedores hasta el borde de los cajones. Para todos los modelos está disponible como accesorio la tapa automática que, al contar con cojinetes deslizantes, permite la apertura y cierre automático de los contenedores. El compartimiento donde se alojan los contenedores se caracteriza por un perfil embutido que, además de volver más sólida la estructura, la hace más agradable.

Caratteristiche:

1. Struttura in lamiera di acciaio zincato verniciato a polveri epossidiche realizzata in un monoblocco.
2. Alloggi dei contenitori realizzati con profilo imbutito.
3. Il sistema prevede il fissaggio all'anta con possibilità di registro.
4. Sistema prodotto per i più importanti produttori di cassetti (BLUM®; HETTICH®; GRASS®; ..).
5. Versione anche per i cassetti ad apertura elettrica (BLUM® Servo Drive).
6. Contenitori in polipropilene completamente riciclabile da 8 a 43 litri (capacità complessiva fino a 86 litri).
7. Tutte le pattumiere sono dotate di un secchio con coperchio con filtro divora odore (rigenerabile con lavaggio fino a 50 volte).
8. Disponibile come optional il coperchio automatico per una chiusura ermetica dei contenitori.
9. Semplicità di installazione.
10. Facile da pulire.

Features:

1. Structure in galvanized sheet steel and epoxy powder painted realized in a single block.
2. Location for bins finished with a deep-drawn profile.
3. The system provides fixing to the front door with registry possibility.
4. Product system for the most important manufacturers of drawers (BLUM®; HETTICH®; GRASS®; ..).
5. Version also for the drawers with electric opening (BLUM® Servo Drive).
6. Inner bins in recyclable polypropylene from 8 till 43 liters (total capacity up to 86 liters).
7. All waste bins have a bin with lid with anti odour filter (regenerable by washing up to 50 times).
8. Available as an optional an automatic cover for an closer.
9. Easy installation.
10. Easy to clean.

Características:

1. Estructura de chapa de acero cincado pintada con polvo epoxi fabricada en una sola pieza.
2. Alojamiento de los contenedores fabricados con perfil embutido.
3. El sistema prevé que se fije a la puerta con posibilidad de regulación.
4. Sistema producido para los principales fabricantes de cajones (BLUM®; HETTICH®; GRASS®; etc.).
5. Versión también para cajones de apertura eléctrica (BLUM® Servo Drive).
6. Contenedores de polipropileno completamente reciclables de 8 a 43 litros (capacidad total de hasta 86 litros).
7. Todos los cubos de basura cuentan con un recipiente con tapa con filtro antiolor (lavándolo puede reutilizarse hasta 50 veces).
8. La tapa automática para un cierre hermético de los contenedores está disponible como opcional.
9. Fácil de instalar.
10. Fácil de limpiar.

Block U-Top

Linea di pattumiere per la raccolta differenziata che permette di posizionare i propri contenitori al di sotto del piano della cucina agevolando le operazioni di raccolta dei rifiuti. Sistema completo composto da un monoblocco in lamiera di acciaio zincato verniciato a polveri epossidiche fornito di guide a sfera ad estrazione totale con soft-closing. La sede di alloggiamento dei contenitori è caratterizzata da un profilo imbutito che oltre ad irrobustire la struttura la rende anche più gradevole

Caratteristiche:

1. Struttura lamiera di acciaio zincato verniciato a polveri epossidiche realizzata in un monoblocco.
2. Guide a sfera ed estrazione totale con soft-closing.
3. Alloggi dei contenitori realizzati con profilo imbutito.
4. Disponibile per basi larghe 300 mm, 400 mm e 450 mm.
5. Contenitori in polipropilene completamente riciclabile da 8 a 24 litri.
6. Tutte le pattumiere sono dotate di un secchio con coperchio con filtro divora odore (rigenerabile con lavaggio fino a 50 volte).
7. Semplicità di installazione.
8. Facile da pulire.

Product line of waste separation that allows you to position the bins below the top of the kitchen top facilitating the waste collection operations. Complete system that consists out of a single block of galvanized steel sheet and epoxy painted supplied with full extension ball bearing slides with soft-closing. The seat of accommodation of the containers is characterized by a deep-drawn profile which strengthen the structure and in addition gives it a clean aspect

Features:

1. Structure of galvanized steel and epoxy powder painted realized in a single block.
2. Ball bearings full extension with soft-closing.
3. Location for bins finished with a deep-drawn profile
4. Available for bases with width of 300 mm, 400 mm and 450 mm.
5. Bins in recyclable polypropylene 8 to 24 liters.
6. All bins are equipped with a bin with lid and 1 anti odour filter (regenerable by washing up to 50 times).
7. Easy installation.
8. Easy to clean.

Línea de cubos de basura para la recogida selectiva que permite colocar los propios contenedores debajo de la encimera de la cocina facilitando las operaciones de recogida de los residuos. Sistema completo compuesto por una sola pieza de chapa de acero cincado pintada con polvo epoxi y con guías de bolas de extracción total con soft-closing. El compartimiento donde se alojan los contenedores se caracteriza por un perfil embutido que, además de volver más sólida la estructura, la hace más agradable.

Características:

1. Estructura de chapa de acero cincado pintada con polvo epoxi fabricada en una sola pieza.
2. Guías de bolas de extracción total con soft-closing.
3. Alojamientos de los contenedores fabricados con perfil embutido.
4. Disponible para bases de 300 mm, 400 mm y 450 mm de largo.
5. Contenedores de polipropileno completamente reciclables de 8 a 24 litros.
6. Todos los cubos de basura cuentan con un recipiente con tapa con filtro antiolor (lavándolo puede reutilizarse hasta 50 veces).
7. Fácil de instalar.
8. Fácil de limpiar.

La soluzione ideale per organizzare lo spazio nel cassetto alto del sotto-lavello.

Ha un design minimale ed elegante e può essere personalizzato nelle finiture (alluminio o lamiera verniciata o acciaio inox; plastiche colorate).

The ideal solution to organize the space in the top of the under-sink drawer.

It has a minimalist design and elegant and can be customized finished (aluminum or painted steel or stainless steel, colored plastics).

La solución ideal para organizar el espacio en la parte superior del cajón bajo fregadero.

Tiene un diseño minimalista y elegante y se puede personalizar acabados (aluminio o acero pintado o acero inoxidable, plásticos de colores).

Caratteristiche:

1. Caratterizzato da una struttura BREVETTATO in Alu Plast.
2. La struttura si integra completamente con le sponde (16mm) del cassetto.
3. Viene fornito completo di vaschette in alluminio plastica, posizionabili secondo le esigenze.
4. Disponibile per tutte le più comuni marche di cassette. Nasce come standard per tutte le tipologie di guide per cassette (Blum; Grass; Hettich; FGV; ...)
5. Facile da pulire.
6. Ha un design minimale ed elegante e può essere personalizzato nelle finiture (alluminio o lamiera verniciata o acciaio inox; plastiche colorate).
7. È disponibile in tutte le misure (non solo 60, 90 e 120; ma anche 50, 80, 100, ...).
8. Può essere fornito smontato (si assembla in pochi minuti) comportando importanti risparmi logistici.
9. Può essere velocemente ritrafilato (per portarlo a dimensioni speciali per basi "fuori misura").

Features:

1. Featuring a PATENTED structure in Alu Plast.
2. The structure integrates fully in the appropriate space (16mm) of the drawer.
3. Comes complete with plastic aluminium trays can be positioned as needed.
4. Available for all popular brands of drawers. Comes as standard for all types of drawer slides (Blum, Grass, Hettich, FGV, ...).
5. Easy to clean.
6. It has a minimalist design and elegant and can be customized finishes (aluminium or steel painted or stainless steel, colored plastics).
7. Available in all sizes (not just 60, 90 and 120, but also 50, 80, 100, ...).
8. Can be supplied separate (assembles in minutes) resulting in significant savings in logistics.
9. Can be quickly redrawn (to bring in special sizes to basics "oversized") cut.

Características:

1. Con una estructura patentada en Alu Plast.
2. La propiedad está totalmente integrado con los bancos (16 mm) del cajón.
3. Viene completo con bandejas de aluminio de plástico se puede colocar como sea necesario.
4. Disponible para todas las marcas populares de cajones. Viene de serie para todos los tipos de diapositivas del cajón (Blum, Grass, Hettich, FGV, ...).
5. Fácil de limpiar.
6. Tiene un diseño minimalista y elegante y se puede personalizar acabados (aluminio o acero, acero pintado o inoxidable, plásticos de colores).
7. Disponible en todos los tamaños (no sólo 60, 90 y 120, pero también 50, 80, 100, ...).
8. Puede ser suministrado por separado (se ensambla en minutos) que resulta en un ahorro significativo en la logística.
9. Puede ser rápidamente vuelve a dibujar (para llevar en tamaños especiales a lo básico "de gran tamaño") cortado.

Metropolis

Unico nel suo genere il Sistema di pattumiere Metropolis è un accessorio da inserire direttamente nei cassettoni.

Un sistema flessibile che si adatta alle svariate misure interne dei cassetti, completamente modulabile e dal montaggio estremamente semplice.

The unique Metropolis dustbins system is an accessory that fits directly into drawers.

A flexible system that adapts to various internal sizes of drawers, completely modular and extremely easy to assemble.

Único en su género, el Sistema de cubos de basura Metropolis es un accesorio para introducir directamente en los distribuidores.

Un sistema flexible que se adapta a las variadas medidas internas de los distribuidores, completamente modulable y con un montaje extremadamente simple.

Caratteristiche:

1. Disponibile in 2 altezze e 3 larghezze.
2. Fornito con guarnizione flessibile per compensare le eventuali differenze di misura bloccando perfettamente il vassoio.
3. Il modello in plastica è dotato di più vasche componibili, fornite in kit di montaggio, con una notevole riduzione di ingombro dell'imballo.
4. La possibilità di spostare i divisori garantisce estrema flessibilità.
5. È possibile l'aggiunta di accessori in filo d'acciaio cromato. (porta detersivo, porta vaschette, porta carta)
6. Tutte le pattumiere sono dotate di un secchio con coperchio con filtro antiodore (rigenerabile con lavaggio fino a 50 volte).

Features:

1. Available in 2 heights and 3 widths .
2. Supplied with a flexible seal to compensate for any differences in terms of size, fully blocking the tray.
3. The plastic model has a number of modular trays, supplied in kit form, with a significant reduction in the overall size of the packaging.
4. The dividers can be re-positioned to ensure flexibility.
5. Accessories in chromed steel wire can be added. (detergents holder, trays holder, paper holder).
6. All the bins have with a bucket with a lid which has an odour filter (which can be regenerated by washing for up to 50 times).

Características:

1. Disponible en 2 alturas y 3 anchos.
2. Se entrega con junta flexible para compensar las posibles diferencias de medida bloqueando perfectamente la bandeja.
3. El modelo de plástico cuenta con varias cubetas auxiliares, entregadas en kit de montaje, con una notable reducción de espacio en el embalaje.
4. La posibilidad de mover los compartimentos garantiza una extrema flexibilidad.
5. Se pueden añadir accesorios de alambre de acero cromado (porta-detergente, porta-cubetas, porta-papel).
6. Todos los cubos de basura llevan un cubo con tapa y filtro anti-olor (regenerable con lavado hasta 50 veces).

Compo Evo

Linea di pattumiere dedicate alla raccolta differenziata per i cassettoni sottolavello. Il sistema è composto da un monoblocco in metallo verniciato a polveri epossidiche nei quali alloggiare i contenitori. La carenatura mostra soltanto i coperchi e rende così il prodotto più essenziale e minimale. La sede di alloggio dei contenitori è caratterizzata da un profilo imbutito che oltre ad irrobustire la struttura la rende anche più gradevole.

Product line of waste separation for under-sink drawers. The system is composed out of two single structures of galvanized steel and epoxy powder painted in which the bins are housed. The housing only shows the top of the bin and makes it the most essential and minimalist product. The seat of location of the bins is characterized by a deep-drawn profile which strengthens the structure and gives it a clean look.

Línea de cubos de basura específicos para recogida selectiva para los cajones bajo el fregadero. El sistema está compuesto por una única pieza de metal pintada con polvo epoxi en la cual se alojan los contenedores. El revestimiento muestra solo las tapas y así hace más esencial y minimalista el producto. El compartimiento donde se alojan los contenedores se caracteriza por un perfil embutido que, además de volver más sólida la estructura, la hace más agradable.

Caratteristiche:

1. Struttura lamiera di acciaio zincato verniciato a polveri epossidiche realizzata in un monoblocco.
2. Alloggi dei contenitori realizzati con profilo imbutito.
3. Contenitori in polipropilene completamente riciclabile con capienza complessiva fino a 48 litri.
4. Contenitori per detersivi o accessori vari per la pulizia.
5. Disponibile per basi larghe 600 mm, 900 mm e 1200 mm.
6. Tutte le pattumiere sono dotate di un secchio con coperchio con filtro divora odore (rigenerabile con lavaggio fino a 50 volte).
7. Semplicità di installazione.
8. Facile da pulire.

Features:

1. Structure of galvanized sheet steel and epoxy powder painted made into a single block.
2. Location for bins finished with a deep-drawn profile.
3. Containers in polypropylene recyclable with a total capacity till 48 liters.
4. Containers for detergents and various cleaning accessories.
5. Available for kitchen bases 600 mm, 900 mm and 1200 mm.
6. All systems are equipped with bins with lid and 1 anti odour filter (regenerable washing with up to 50 times).
7. Easy installation.
8. Easy to clean.

Características:

1. Estructura de chapa de acero cincado pintada con polvo epoxi fabricada en una sola pieza.
2. Alojamiento de los contenedores fabricados con perfil embutido.
3. Contenedores de polipropileno completamente reciclables con capacidad total de hasta 48 litros.
4. Contenedores para detergentes o accesorios varios para la limpieza.
5. Disponible para bases de 600 mm, 900 mm y 1200 mm de largo.
6. Todos los cubos de basura cuentan con un recipiente con tapa con filtro antiolor (lavándola puede reutilizarse hasta 50 veces).
7. Fácil de instalar.
8. Fácil de limpiar.

Wizard X

Ricercato sistema porta stoviglie da cassettone in Acciaio Inox AISI 304 composto da una vasca raccogli gocce in acciaio spazzolato elettrosaldato con all'interno una griglia porta piatti, una griglia porta coperchi in filo d'acciaio ed una bacinella forata di servizio (che può esser utilizzata anche per trasportare gli oggetti dal cassettone alla tavola). Linee minimali e materiali nobili per un prodotto top di gamma.

Caratteristiche:

1. Vasca raccogli gocce in acciaio spazzolato AISI 304 elettrosaldato.
2. Accessori porta piatti e porta coperchi in filo d'acciaio AISI 304
3. Bacinella forata di servizio con supporti in gomma.
4. Semplicità di installazione.
5. Facile da pulire.

Sophisticated system of plates and dishes housings made out of stainless steel AISI 304 composed of a drip tray in welded brushed steel with on the inside a plate rack, a pan rack in chrome steel wire and a perforated glass tray (which can be used also to carry items from the drawers to the table). Minimal lines and noble materials for a product top of a range.

Features:

1. Drip tray welded and brushed stainless steel AISI 304.
2. Accessories plate rack and lid holder made out of steel wire AISI 304
3. Perforated service tray with rubber support on the wire legs.
4. Easy installation.
5. Easy to clean.

Refinado sistema porta vajilla de cajón de Acero Inoxidable AISI 304 compuesto por un recipiente recolector de gotas de acero bruñido electrosoldado con una rejilla porta platos en su interior, una rejilla porta tapas de hilo de acero y un cubeta perforada de servicio (que puede utilizarse también para transportar los objetos del cajón a la mesa). Líneas minimalistas y materiales nobles para un producto top de gama.

Características:

1. Recipiente recolector de gotas de acero bruñido AISI 304 electrosoldado.
2. Accesorios porta platos y porta tapas de hilo de acero AISI 304.
3. Cubeta perforada de servicio con soportes de goma.
4. Fácil de instalar.
5. Fácil de limpiar.

Wizard P

Sistema porta stoviglie da cassetto composto da una vasche in plastica che assemblate insieme fungono da un ermetico raccogli gocce con all'interno una griglia porta piatti e griglie porta bicchieri in filo d'acciaio AISI 304. Tutte le griglie possono essere utilizzate per trasportare gli oggetti dal cassetto alla tavola.

System of plates and dishes housings consisting out of plastic trays that assembled together act as a hermetic drip container with inside a plate rack a glass rack in chrome steel wire in AISI 304. All the wire elements can be removed to transport the tableware from the drawers to the table.

Sistema porta vajilla de cajón compuesto por recipientes de plástico que, ensamblados juntos, cumplen la función de un hermético recolector de gotas con una rejilla porta platos en su interior y rejillas porta vasos de hilo de acero AISI 304. Se pueden usar todas las rejillas para transportar los objetos del cajón a la mesa.

Caratteristiche:

1. Vasche isolanti in polipropilene dotate di guarnizioni flessibili sul perimetro.
2. Accessori porta piatti e porta bicchieri in filo d'acciaio AISI 304.
3. Disponibile per basi larghe 600 mm, 900 mm e 1200 mm
4. Semplicità d'installazione.
5. Facile da pulire.

Features:

1. Polypropylene trays equipped with flexible seals on their outside.
2. Plate rack and glass rack accessories in chrome steel wire AISI 304.
3. Available for base units 600 mm, 900 mm and 1200 mm
4. Easy installation.
5. Easy to clean.

Características:

1. Recipientes aislantes de polipropileno que cuentan con juntas flexibles en el perímetro.
2. Accesorios porta platos y porta vasos de hilo de acero AISI 304.
3. Disponible para bases de 600 mm, 900 mm y 1.200 mm de largo.
4. Fácil de instalar.

Wood Line

Linea di porta posate da cassetto prodotta in faggio massello dal design semplice e minimale. I divisori realizzati in 3 altezze differenti conferiscono un aspetto ricercato e ne agevolano l'utilizzo. La serie è disponibile nelle finiture Faggio naturale, Faggio tinto nero e Faggio laccato bianco. Tutti i vani contenitori sono studiati per ottimizzare gli spazi e permettono l'inserimento degli optional in acciaio inox AISI 430 quali porta coltelli o porta spezie con vasetti in vetro temperato.

Line of cutlery trays produced in solid beech wood with a simple and minimal design. The dividers are made in 3 different heights which give it a sophisticated look and facilitate the use. This series is available in natural beech finish, stained black beech and white lacquered beech. All compartments are designed to maximize space and allow the insertion of the optional in stainless steel AISI 430 like knives block or glass (tempered) spice jars.

Línea de porta cubiertos de cajón fabricada de haya maciza con un diseño simple y minimalista. Los divisorios realizados en 3 alturas diferentes le otorgan un aspecto refinado y facilitan su uso. La serie está disponible en los acabados Haya natural, Haya teñida de negro y Haya laqueada de blanco. Todos los compartimientos contenedores han sido diseñados para optimizar los espacios y permiten introducir los opcionales de acero inoxidable AISI 430, como porta cuchillos o especieros con envases de vidrio templado.

Caratteristiche:

1. Realizzato in faggio massello completamente riciclabile.
2. Disponibile per cassette di larghezza 450 mm, 600 mm, 900 mm e 1200 mm.
3. I divisori in faggio massello hanno uno spessore di 8 mm.
4. Disponibile nelle finiture faggio naturale, faggio tinto nero o faggio laccato bianco.
5. Le vernici utilizzate sono tutte eco sostenibili e certificate per alimenti.
6. Disponibile come optional gli accessori in acciaio inox AISI 430 quali porta coltelli o i vasetti porta spezie in vetro temperato.
7. Semplicità di installazione.
8. Facile da pulire.

Features:

1. Made of solid beech (recyclable).
2. Available for drawers with width of 450 mm, 600 mm, 900 mm and 1200 mm.
3. The dividers are of solid beech with a thickness of 8 mm.
4. Available in natural beech, stained black beech or white lacquered beech.
5. The paints used are environmentally sustainable and certified for food.
6. As optional available stainless steel AISI 430 accessories such as knife block or spice jars glass (tempered) tray.
7. Easy installation.
8. Easy to clean.

Características:

1. Realizado de haya maciza, completamente reciclable.
2. Disponible para cajones de 450 mm, 600 mm, 900 mm y 1.200 mm de largo.
3. Los divisorios de haya maciza tienen un espesor de 8 mm.
4. Disponible en los acabados haya natural, haya teñida de negro o haya laqueada de blanco.
5. Las pinturas utilizadas son todas ecosostenibles y certificadas para alimentos.
6. Están disponibles como opcional los accesorios de acero inoxidable AISI 430, como porta cuchillos o especieros de vidrio templado.
7. Fácil de instalar.
8. Fácil de limpiar.

Uppo

Linea di portaposate in polipropilene con linee morbide e design moderno.

Studiato per razionalizzare al massimo gli spazi all'interno del cassetto e aumentarne la funzionalità. Nato dalla collaborazione con i designer "Lineaguida".

Cutlery tray product line made of polypropylene with a soft shapes and a modern design.

Designed for maximum rationalisation of space inside drawers and to increase functionality. Developed in collaboration with the "Lineaguida" designers.

Línea de bandeja para cubiertos en polipropileno con líneas suaves y diseño moderno.

Estudiado para optimizar al máximo los espacios del cajón y aumentar su funcionalidad. Nacido de la colaboración con los diseñadores "Lineaguida".

Caratteristiche:

1. Polipropilene completamente riciclabile.
2. Piano leggermente inclinato per facilitare la presa delle posate.
3. Disponibile per cassette da 300 mm. a 1500 mm. 4. A partire dal cassetto di 600 mm. Porta coltelli standard inserito.
4. Taglio personalizzato a richiesta.
5. Colori disponibili bianco, grigio e metallizzato.

Features:

1. Completely recyclable Polypropylene.
2. Slightly angled to facilitate gripping of the cutlery.
3. Available in sizes for 300 mm to 1500 mm drawers.
4. A standard knife holder is included from the 600 mm drawer upwards.
5. Customised sizing on request.
6. Available colours: white, grey and metallic.

Características:

1. Polipropileno completamente reciclable.
2. Plano ligeramente inclinado para poder coger los cubiertos de forma más fácil.
3. Disponible para cajones de 300mm. a 1500mm.
4. A partir del cajón de 600mm., se incluye un porta-cuchillos estándar.
5. Corte personalizado a petición.
6. Colores disponibles blanco, gris y metalizado.

Bridge

Scolapiatti in acciaio inox AISI 304 o in alternativa, nel più economico acciaio inox AISI 430. Accessori per pensili o per piano cucina prodotti tramite processo di stampaggio. Sono disponibili vari design sia nel porta piatti, sia nel porta bicchieri che nella vaschetta raccogli gocce.

I550 nuovo modello 2016 con portapiatti migliorato nel design e rinforzato di terminali in plastica.

Stainless steel dish drainer AISI 304 or alternatively, in the more economical stainless steel AISI 430. Accessories for wall cabinets or kitchen top products through molding process. They are available in various designs both plate racks and glass racks and the drip trays.

The I550 is the new model for 2016 with improved plate racks in design and reinforced plastic terminals.

Escurreplatos de acero inoxidable AISI 304 o, como alternativa, de acero inoxidable AISI 430, más económico. Accesorios para alacenas o para encimeras de cocina fabricados mediante proceso de moldeo. Hay varios diseños disponibles, tanto en el porta platos como en el porta vasos y en el recipiente recolector de gotas.

I550 Nuevo modelo 2016 con porta platos con diseño mejorado y terminales de plástico reforzados.

Caratteristiche:

1. Prodotto in acciaio inox (AISI304 o AISI430) completamente riciclabile.
2. Disponibile per pensili da 400 a 1200 mm.
3. Disponibili 2 modelli di vaschette raccogli gocce: una completamente in acciaio e l'altra con terminali in plastica e bordo rialzato.
4. Sistemi di fissaggio con registrabili a molla o a vite (fori di 5 o 10 mm) o con perno fisso per telaio.
5. Disponibile in acciaio inox AISI 304 o, in alternativa, nel più economico AISI 430.
6. Disponibili accessori in plastica quali: portaposate, porta piatti e porta piattini da inserire sul piano del porta bicchieri.
7. Facile da pulire.

Features:

1. A stainless steel product (AISI 304 or AISI 430) completely recyclable product.
2. Available for cabinets in sizes ranging from 400 to 1200 mm.
3. Availability of 2 drip trays models: one made completely of steel and the other with plastic ends with raised edges.
4. Fastening systems with spring or screw fixations (5 or 10 mm holes) or with a fixed pivot for the frame.
5. Available in AISI 304 stainless steel, or alternatively, in the less expensive AISI 430 stainless steel.
6. Availability of plastic accessories such as cutlery holders, plate and small plate holders to be inserted on the cups holder level.
7. Easy to clean.

Características:

1. Producto de acero inoxidable (AISI304 o AISI430) completamente reciclable.
2. Disponible para colgantes de 400 a 1200mm.
3. Disponibles 2 modelos de cubetas para recoger gotas: una completamente de acero y la otra con terminales de plástico y borde realzado.
4. Sistemas de fijación con extensibles de muelle o tornillo (agujeros de 5 o 10mm) o con tuerca fija para marco.
5. Disponible en acero inoxidable AISI 304 o, como alternativa, en el más económico AISI 430.
6. Disponibles accesorios de plástico como: bandejas para cubiertos, porta-platos, porta-platos pequeños para insertar en el plano del porta-vasos.
7. Fácil de limpiar.

Individuate il modello di scolapiatti tra le varie soluzioni fotografate nelle pagine successive e selezionate la colonna relativa al tipo di materiale e al sistema di attacco; in questo modo otterrete il codice generico. Al posto dei caratteri XX inserire la misura degli scolapiatti che desiderate ordinare tra quelle disponibili riportate di seguito:
36 - 41 - 46 - 51 - 56 - 61 - 66 - 71
76 - 81 - 86 - 91 - 96 - 116

Choose the dish drainer model among the various solutions photographed into the following pages and select the column referring to material type and fixing system. In this way you will obtain the general code. Replace the XX with the dish drainer sizes that you wish to order within the following available sizes:
36 - 41 - 46 - 51 - 56 - 61 - 66 - 71
76 - 81 - 86 - 91 - 96 - 116

Elija el modelo de escurreplatos que desee entre las diversas soluciones mostradas en las fotografías de las siguientes páginas y seleccione la columna correspondiente al tipo de material y al sistema de sujeción; de este modo, obtendrá el código general. En lugar de las XX, inserte la medida de los escurreplatos que desee solicitar, a continuación se presentan las opciones disponibles:
36 - 41 - 46 - 51 - 56 - 61 - 66 - 71
76 - 81 - 86 - 91 - 96 - 116

Cover Box

Frutto di un lungo studio e di una continua ricerca per conciliare al meglio estetica e funzionalità, i secchi Coverbox, sono caratterizzati da cura nei dettagli e robustezza. (designed by "Lineaguida").

The result of long term study and a continuous search for the best balance between aesthetics and functionality, attention to detail and robustness are the features of Coverbox buckets. (designed by "Lineaguida").

Fruto de un largo estudio y de una continua investigación para conciliar del mejor modo posible estética y funcionalidad, los cubos Coverbox se caracterizan por el cuidado de los detalles y la solidez. (Diseño Lineaguida).

Caratteristiche:

1. Plastica completamente riciclabile.
2. Incisioni centrali, che permettono l'inserimento anche di due sacchetti per secchio.
3. Il sistema dei manici "multifunzione" è disponibile in vari colori, permette di impugnare il secchio senza togliere il coperchio e funziona anche da bloccasacchetto.
4. Disponibili in varie dimensioni: 4 misure in altezza, 3 in larghezza.
5. Possono essere forniti di coperchio semplice o con filtro antiodore (rigenerabile con lavaggio fino a 50 volte).

Features:

1. Completely recyclable plastic.
2. Incisions in the middle which also allow the insertion of two bags per bucket.
3. The "multi-function" handles system is available in various colours, and it allows you to take hold of the bucket without removing the lid. It also blocks the bags.
4. Available in various sizes: 4 in height, 3 in width.
5. May be supplied with a simple lid or one with an odour filter (which can be regenerated by washing for up to 50 times).

Características:

1. Plástico completamente reciclable.
2. Incisiones centrales que permiten también introducir dos bolsas de basura por cubo.
3. El sistema de las asas "multifunción" está disponible en varios colores, permite sujetar el cubo sin quitar la tapa, y funciona también para fijar las bolsas de basura.
4. Disponibles en varios tamaños: 4 medidas en altura, 3 en ancho.
5. Se pueden entregar con tapa simple o con filtro anti-olor (regenerable con lavado hasta 50 veces).
